Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science)

Michael D. Riley

Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) Michael D. Riley
1.1. Steps in the initial auditory processing. 4 2 THE TIME-FREQUENCY ENERGY REPRESENTATION 2.1. Short-time spectrum of a steady-state Iii. 9 2.2. Smoothed short-time spectra. 9 2.3. Short-time spectra of linear chirps. 13 2.4. Short-time spectra of /w /'s. 15 2.5. Wide band spectrograms of /w /'s. 16 Spectrograms of rapid formant motion. 2.6. 17 2.7. Wigner distribution and spectrogram. 21 2.8. Wigner distribution and spectrogram of cos wot. 23 2.9. Concentration ellipses for transform kernels. 28 2.10. Concentration ellipses for complementary kernels. 42 42 2.11. Directional transforms for a linear chirp. 47 2.12. Spectrograms of /wioi/ with different window sizes. 2.13. Wigner distribution of /wioi/. 49 2.14. Time-frequency autocorrelation function of /wioi/. 49 2.15. Gaussian transform of Iwioi/. 50 2.16. Directional transforms of lwioi/. 52 3 TIME-FREQUENCY FILTERING 3.1. Recovering the transfer function by filtering. 57 3.2. Estimating 'aliased' transfer function. 61 3.3. T-F autocorrelation function of an impulse train. 70 3.4. T-F autocorrelation function of LTI filter output. 70 Windowing recovers transfer function. 3.5. 72 3.6. Shearing the time-frequency autocorrelation function. 75 3.7. T-F autocorrelation function for FM filter. 76 3.8. T-F autocorrelation function of FM filter output. 77 3.9. Windowing recovers transfer function. 79 4 THE SCHEMATIC SPECTROGRAM Problems with pole-fitting approach.

From reader reviews:

David Nester:

The experience that you get from Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) could be the more deep you digging the information that hide inside the words the more you get serious about reading it. It does not mean that this book is hard to comprehend but Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) giving you excitement feeling of reading. The copy writer conveys their point in particular way that can be understood through anyone who read that because the author of this book is well-known enough. This kind of book also makes your personal vocabulary increase well. That makes it easy to understand then can go along, both in printed or e-book style are available. We recommend you for having this specific Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) instantly.

Robert Cobb:

Spent a free time and energy to be fun activity to complete! A lot of people spent their leisure time with their family, or all their friends. Usually they performing activity like watching television, going to beach, or picnic from the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your free time/ holiday? Could possibly be reading a book may be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to try out look for book, may be the guide untitled Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) can be excellent book to read. May be it can be best activity to you.

Sally McGarvey:

Often the book Speech Time-Frequency Representations (The Springer International Series in Engineering and Computer Science) has a lot info on it. So when you read this book you can get a lot of benefit. The book was published by the very famous author. Mcdougal makes some research before write this book. That book very easy to read you will get the point easily after reading this book.

Sandra Birk:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library or even make summary for some reserve, they are complained. Just little students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Speech Time-Frequency Representations (The Springer International Series in Engineering

and Computer Science) can make you really feel more interested to read.
