De Bono Coniugali, De Sancta Virginitate (Oxford Early Christian Texts) Augustine

These two treatises have been neglected until recently, but lately there has been an outpouring of books and articles on the role of women in the societies of Rome and early Christianity. No new edition of these works has been published since 1900, and there is no contemporary English translation in print. This new translation and edition of the text will be of value both to readers who wish to consult the original Latin, and to those interested in the social history of early Christianity and the intellectual development of Augustine in his early years.
