Gendered Compromises: Political Cultures and the State in Chile, 1920-1950 Karin Alejandra Roseblatt

With this book, Karin Roseblatt presents a gendered history of the politics and political compromise that emerged in Chile during the 1930s and 1940s, when reformist popular-front coalitions held power. While other scholars have focused on the economic realignments and novel political pacts that characterized Chilean politics during this era, Roseblatt explores how gender helped shape Chile's evolving national identity.

Roseblatt examines how and why the aims of feminists, socialists, labor activists, social workers, physicians, and political leaders converged around a shared gender ideology. Tracing the complex negotiations surrounding the implementation of new labor, health, and welfare policies, she shows that professionals in health and welfare agencies sought to regulate gender and sexuality within the working class and to consolidate the male-led nuclear family as the basis of societal stability. Leftists collaborated in these efforts because they felt that strong family bonds would generate a sense of class belonging and help unify the Left, while feminists perceived male familial responsibility as beneficial for women. Diverse actors within civil society thus reworked the norms of masculinity and femininity developed by state agencies and political leaders--even as others challenged those ideals.
