Learning Criminal Procedure teaches students the law of criminal procedure by presenting clear, succinct sets of rules for each topic, summaries of actual cases that illustrate how the rules operate in practice, and substantial excerpts from leading Supreme Court cases. Evolving areas of law are highlighted for the students, and the book contains over one hundred review questions that can be used for classroom discussion or for reinforcing what the students learn in each chapter. The book's authors build on their combined decades of practical experience to explore the law in straightforward text that enables students to easily engage with the subject. The teacher's manual contains dozens of suggestions for interactive student exercises and further problems for students to discuss during class.
