Problem Organisms in Water Identification and Treatment (M7): AWWA Manual of Practice (AWWA Manuals) American Water Works Association

The manual identifies most of the problem organisms found in water supplies and provides recommendations for removing or inactivating them. Chapters describe and illustrate each organism, explain the types of problems it can cause, and offers suggestions for treatment or control. Nonpathogenic organisms covered include actinomycetes, iron bacteria, sulfur bacteria, nitrifying bacteria, nematodes, bloodworms or midges, crustacea, rotifers, zebra mussels, algae, and protozoa.

The manual includes a Troubleshooting Guide for Problem Organisms and color plates that illustrate the organisms.
