Digital Barbarism: A Writer's Manifesto Mark Helprin

“A strange, wondrous, challenging, enriching book....Beautiful and powerful...you will not encounter another book like it.”<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

—*National Review* online

In *Digital Barbarism*, bestselling novelist Mark Helprin (*Winter's Tale*, *A Soldier of the Great War*) offers a ringing Jeffersonian defense of private property in the age of digital culture, with its degradation of thought and language and collectivist bias against the rights of individual creators. A timely, cogent, and important attack on the popular Creative Commons movement, *Digital Barbarism* provides rational, witty, and supremely wise support for the individual voice and its hard-won legal protections.
