Into Deepest Yellowstone

Philip R. Knight

Into Deepest Yellowstone Philip R. Knight

Greater Yellowstone holds vast areas of wilderness and great herds of wild animals, but this famous region is under increasing pressure from human population and development. Concerned that wilderness and wild creatures are becoming rarer each day, Alaina and Philip R. Knight headed on foot deep into the Yellowstone back-country on an epic journey of discovery. While they sought the truth about the health of the iconic Yellowstone country, the couple also learned much about themselves—and each other. Grizzly bears, lightning storms, rugged mountains, raging rivers, and off-trail route-finding added to the challenge of this trek. Carrying everything on their backs, including food for two weeks at a time, these modern-day explorers traversed five mountain ranges and over six hundred miles of the most challenging terrain in the lower forty-eight. They experienced everything from sublime peace and beauty, to soothing geothermal hot springs, to extreme frustration and exhaustion. The Knights ultimately found what they were looking for: Deepest Yellowstone’s secrets. Phil and Alaina Knight live in a mountain valley on the northern edge of the Yellowstone region.
