Metadata Standards and Web Services in Libraries, Archives, and Museums: An Active Learning Resource Erik Mitchell

Metadata in library information environments is evolving rapidly. This book provides readers with a set of tools for designing, developing, and implementing metadata-rich information systems while also examining the challenges and opportunities in this field.

• Takes a cross-disciplinary approach to the issues, trends, and technologies relevant in information communities such as libraries, archives, and museums

• Presents grounded instruction that makes no assumptions about the technical expertise of the reader—perfect for new graduate students

• Provides structured learning activities that dovetail theoretical learning with the acquisition of hands-on and technical understanding that is essential for real-world success in metadata and information system design
