Globalization and Higher Education in India K. N. Panikkar, M. Bhaskaran Nair

Globalization and Higher Education in India analyses how the Indian education system can be re-structured to shape the cognitive skills, inter-personal sensibilities and cultural sophistication of the children and prepare them for a globalized knowledge society. For scholars and practitioners of sociology and education, as well as policy makers, it offers insights into the effect of liberalization on education and the impact of initiatives like public-private partnership and explores the roadblocks and facilitators on the road to educational reforms.
