Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence)

Krish Krishnan

Data Warehousing in the Age of the Big Data will help you and your organization make the most of unstructured data with your existing data warehouse.

As Big Data continues to revolutionize how we use data, it doesn't have to create more confusion. Expert author Krish Krishnan helps you make sense of how Big Data fits into the world of data warehousing in clear and concise detail. The book is presented in three distinct parts. Part 1 discusses Big Data, its technologies and use cases from early adopters. Part 2 addresses data warehousing, its shortcomings, and new architecture options, workloads, and integration techniques for Big Data and the data warehouse. Part 3 deals with data governance, data visualization, information life-cycle management, data scientists, and implementing a Big Data-ready data warehouse. Extensive appendixes include case studies from vendor implementations and a special segment on how we can build a healthcare information factory.

Ultimately, this book will help you navigate through the complex layers of Big Data and data warehousing while providing you information on how to effectively think about using all these technologies and the architectures to design the next-generation data warehouse.

- Learn how to leverage Big Data by effectively integrating it into your data warehouse.
- Includes real-world examples and use cases that clearly demonstrate Hadoop, NoSQL, HBASE, Hive, and other Big Data technologies
- Understand how to optimize and tune your current data warehouse infrastructure and integrate newer infrastructure matching data processing workloads and requirements

From reader reviews:

Benjamin Martinez:

This Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence) are usually reliable for you who want to become a successful person, why. The explanation of this Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence) can be one of many great books you must have is definitely giving you more than just simple studying food but feed a person with information that might be will shock your before knowledge. This book is handy, you can bring it everywhere and whenever your conditions in e-book and printed versions. Beside that this Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence) forcing you to have an enormous of experience such as rich vocabulary, giving you trial of critical thinking that we realize it useful in your day activity. So , let's have it and enjoy reading.

Hilton Rogers:

A lot of people always spent their free time to vacation or maybe go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or maybe playing video games all day long. If you would like try to find a new activity that is look different you can read any book. It is really fun in your case. If you enjoy the book you read you can spent all day every day to reading a e-book. The book Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence) it doesn't matter what good to read. There are a lot of those who recommended this book. They were enjoying reading this book. When you did not have enough space to develop this book you can buy typically the e-book. You can m0ore very easily to read this book from your smart phone. The price is not to fund but this book offers high quality.

Sarah McClain:

People live in this new day of lifestyle always aim to and must have the free time or they will get lot of stress from both lifestyle and work. So , whenever we ask do people have time, we will say absolutely sure. People is human not only a robot. Then we consult again, what kind of activity do you have when the spare time coming to an individual of course your answer will certainly unlimited right. Then ever try this one, reading publications. It can be your alternative throughout spending your spare time, the actual book you have read is usually Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence).

William Quesada:

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some book, they are complained. Just little students that has reading's internal or real their hobby. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we

know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Data Warehousing in the Age of Big Data (The Morgan Kaufmann Series on Business Intelligence) can make you sense more interested to read.
