The Essence of Being Gay

Michael Hone

The Essence of Being Gay Michael Hone

The Essence of Being Gay covers everything from infibulations--Greek boys who tied their foreskins shut--to studies into the causes of homosexuality, even if the foremost psychiatrist, Freud, stated that it was the enigma of his life of research. It encompasses homosexuality in artists and kings, writers and rent-boys. It touches of virility through the ages, jockstraps, mutual pleasuring and penis size. It extends from the hallowed Greeks to pre-WW II Berlin and today's Bel Ami. I've never included scenes of pornography in my books, while in this one I do, beginning with the first homosexual pornographic book written, Alcibiades the Schoolboy in 1630, and extending to our own, far more blatant modern times. Xenophon hammered again and again that the key to male love was education: It's that truth the motor of this book.
