# Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues

## **Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues**

Updating the extremely successful *Wildlife Toxicology and Population Modeling* (CRC Press, 1994), ***Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues*** brings together a distinguished group of international contributors, who provide a global assessment of a range of environmental stressors, including pesticides, environmental contaminants, and other emerging chemical threats, and their impact on wildlife populations.

## **Addresses Emerging Wildlife Threats in One Concise Volume**

A decade ago, many of these threats existed but were either unrecognized or considered minor issues, and all have now snowballed into major challenges for the conservation of wildlife populations. This is the first book to address these dangers in a single volume and recommend proven mitigation techniques to protect and sustain Earth's wildlife populations.

## **Examines Species Range Shifts, Ocean Acidification, Coral Bleaching, & Impacts of Heightened UV Influx**

This comprehensive reference identifies and documents examples of chemical stressor exposures and responses among ecosystem receptors worldwide. Chapters discuss emerging diseases and the expansion of pesticide/contaminant use, as well as agricultural trends and biofuels, and the widespread use of munitions and explosives from military and industrial-related activities. With the aid of several solid case studies, the book also addresses atmospheric contaminants and climate change, population modeling, and emerging transnational issues in ecotoxicology.

***Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues* stimulates dialogue among the academic and research communities and environmental public policy decision makers. The book challenges these groups to think more globally about environmental contaminants and their potential impacts on biodiversity and environmental degradation.**

Check out Ronald J. Kendall's *Advances in Biological and Chemical Terrorism Countermeasures*.

Professor Kendall has been quoted recently in several news outlets in connection with the Gulf Oil Spill. Check out these articles on the CRC Press Ning page.

### From reader reviews:

#### **Julio Keith:**

The reserve with title Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues has lot of information that you can understand it. You can get a lot of gain after read this book. This book exist new information the information that exist in this book represented the condition of the world now. That is important to yo7u to learn how the improvement of the world. That book will bring you with new era of the syndication. You can read the e-book on your smart phone, so you can read the idea anywhere you want.

#### **Dorothy Cropper:**

Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues can be one of your nice books that are good idea. We all recommend that straight away because this e-book has good vocabulary that could increase your knowledge in language, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to put every word into satisfaction arrangement in writing Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues although doesn't forget the main stage, giving the reader the hottest and also based confirm resource info that maybe you can be among it. This great information may drawn you into completely new stage of crucial thinking.

#### **Abel Cooke:**

That book can make you to feel relax. This kind of book Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues was colourful and of course has pictures on there. As we know that book Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues has many kinds or style. Start from kids until adolescents. For example Naruto or Investigator Conan you can read and think that you are the character on there. Therefore not at all of book are usually make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for yourself and try to like reading in which.

#### **Candace Edwards:**

A lot of people said that they feel weary when they reading a book. They are directly felt it when they get a half areas of the book. You can choose the book Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues to make your own personal reading is interesting. Your personal skill of reading expertise is developing when you such as reading. Try to choose straightforward book to make you enjoy to learn it and mingle the feeling about book and reading through especially. It is to be 1st opinion for you to like to open a book and learn it. Beside that the guide Wildlife Toxicology: Emerging Contaminant and Biodiversity Issues can to be your new friend when you're sense alone and confuse in what must you're doing of the time.
