Seamless R and C++ Integration with Rcpp: 64 (Use R!)

Dirk Eddelbuettel

Seamless R and C++ Integration with Rcpp: 64 (Use R!) Dirk Eddelbuettel

Rcpp is the glue that binds the power and versatility of R with the speed and efficiency of C++. With Rcpp, the transfer of data between R and C++ is nearly seamless, and high-performance statistical computing is finally accessible to most R users. Rcpp should be part of every statistician's toolbox. -- Michael Braun, MIT Sloan School of Management 'Seamless R and C++ integration with Rcpp' is simply a wonderful book. For anyone who uses C/C++ and R, it is an indispensable resource. The writing is outstanding. A huge bonus is the section on applications. This section covers the matrix packages Armadillo and Eigen and the GNU Scientific Library as well as RInside which enables you to use R inside C++. These applications are what most of us need to know to really do scientific programming with R and C++. I love this book. -- Robert McCulloch, University of Chicago Booth School of Business Rcpp is now considered an essential package for anybody doing serious computational research using R. Dirk's book is an excellent companion and takes the reader from a gentle introduction to more advanced applications via numerous examples and efficiency enhancing gems. The book is packed with all you might have ever wanted to know about Rcpp, its cousins (RcppArmadillo, RcppEigen .etc.), modules, package development and sugar. Overall, this book is a must-have on your shelf. -- Sanjog Misra, UCLA Anderson School of Management The Rcpp package represents a major leap forward for scientific computations with R. With very few lines of C++ code, one has R's data structures readily at hand for further computations in C++. Hence, high-level numerical programming can be made in C++ almost as easily as in R, but often with a substantial speed gain. Dirk is a crucial person in these developments, and his book takes the reader from the first fragile steps on to using the full Rcpp machinery. A very recommended book! -- Søren Højsgaard, Department of Mathematical Sciences, Aalborg University, Denmark 'Seamless R and C++ Integration with Rcpp' provides the first comprehensive introduction to Rcpp. Rcpp has become the most widely-used language extension for R, and is deployed by over one-hundred different CRAN and BioConductor packages. Rcpp permits users to pass scalars, vectors, matrices, list or entire R objects back and forth between R and C++ with ease. This brings the depth of the R analysis framework together with the power, speed, and efficiency of C++. Dirk Eddelbuettel has been a contributor to CRAN for over a decade and maintains around twenty packages. He is the Debian/Ubuntu maintainer for R and other quantitative software, edits the CRAN Task Views for Finance and High-Performance Computing, is a co-founder of the annual R/Finance conference, and an editor of the Journal of Statistical Software. He holds a Ph.D. in Mathematical Economics from EHESS (Paris), and works in Chicago as a Senior Quantitative Analyst.

From reader reviews:

Barry Houde:

This Seamless R and C++ Integration with Rcpp: 64 (Use R!) book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this book incredible fresh, you will get details which is getting deeper you read a lot of information you will get. This kind of Seamless R and C++ Integration with Rcpp: 64 (Use R!) without we understand teach the one who looking at it become critical in imagining and analyzing. Don't be worry Seamless R and C++ Integration with Rcpp: 64 (Use R!) can bring if you are and not make your bag space or bookshelves' become full because you can have it within your lovely laptop even phone. This Seamless R and C++ Integration with Rcpp: 64 (Use R!) having good arrangement in word as well as layout, so you will not really feel uninterested in reading.

Julia Jenkins:

Spent a free time and energy to be fun activity to complete! A lot of people spent their down time with their family, or their very own friends. Usually they undertaking activity like watching television, gonna beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your free time/ holiday? Can be reading a book could be option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of reserve that you should read. If you want to try look for book, may be the book untitled Seamless R and C++ Integration with Rcpp: 64 (Use R!) can be fine book to read. May be it can be best activity to you.

Mamie Crossett:

Beside this specific Seamless R and C++ Integration with Rcpp: 64 (Use R!) in your phone, it could possibly give you a way to get nearer to the new knowledge or information. The information and the knowledge you might got here is fresh in the oven so don't end up being worry if you feel like an aged people live in narrow community. It is good thing to have Seamless R and C++ Integration with Rcpp: 64 (Use R!) because this book offers to you personally readable information. Do you oftentimes have book but you don't get what it's exactly about. Oh come on, that wil happen if you have this inside your hand. The Enjoyable agreement here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss it? Find this book and also read it from now!

Tamica Harris:

What is your hobby? Have you heard that will question when you got scholars? We believe that that problem was given by teacher on their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person such as reading or as reading become their hobby. You need to understand that reading is very important and also book as to be the matter. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You discover good news or update about something by

book. Numerous books that can you choose to adopt be your object. One of them is actually Seamless R and C++ Integration with Rcpp: 64 (Use R!).
