Neuroradiology: The Essentials with MR and CT Val M. Runge, Wendy Smoker, Antonios Valavanis

Neuroradiology is a core clinical resource that clearly illustrates and describes MR and CT images of the brain, head and neck, and spine. The text distills the essential aspects of neuroradiology and contains in-depth discussions of imaging findings. Written from a clinical radiology perspective, the content of this book draws on the personal experience of the authors, all of whom are leading experts in neuroradiology.

This excellent clinical reference helps busy radiologists and neuroradiologists, as well as residents and fellows in these specialties, tackle challenging cases they face on a day-to-day basis and enables them to properly diagnose the common, important pathologies encountered in their patients.
