Pat Guthrie, author of *The Architect's Portable Handbook*, now turns his attention to interior design. Like its predecessor, the book is organized in CSI MasterFormat, modified for the interior design profession. It covers initial planning and estimating through design and construction/installation. Included are materials and specifications checklists, quick references to applicable codes and standards, design data, and typical details. Examples show applications of techniques and procedures. This invaluable reference, like all titles in the Portable Handbook series, provides "the 20% of information needed 80% of the time."
