**Atlas of Human Blastocysts (Encyclopedia of Visual Medicine Series)** Nikica Zaninovic MS

Providing information from the cutting edge of reproductive technology, this full-color atlas vividly illustrates the typical and atypical morphology of human blastocysts collected and cultured during the course of in vitro fertilization treatments. Both the narrative and the illustrations also detail a variety of new reproductive technologies. All photographs are supported by detailed legends, and a glossary of terms is included. This atlas is edited by two world-class embryologists both of whom work at the prestigious Center for Reproductive Medicine and Infertility at the Weill Medical College of Cornell University.
