AIDS in America

Susan Hunter

AIDS in America Susan Hunter

With more than one million people currently infected and half a million already dead, the U.S. ranks among the top ten most severe AIDS epidemics in the world. Americans should know more about the current state of the epidemic so they can protect themselves and demand that the government act responsibly to reduce the danger of HIV in this country. Hunter exposes the ways in which the U.S. shamefully resembles a developing country, and the many fronts on which the government has failed to control the spread of the disease. In this startling book, she also shows what we must do to change the future of AIDS.
