Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series)

Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series)

This comprehensive volume discusses approaches for a systematic selection of delivery systems for various classes of therapeutic agents including small molecule, protein, and nucleic acid drugs.

Specific topics covered in this book include:

- Solution, suspension, gel, nanoparticle, microparticle, and implant dosage forms
- Refillable and microneedle devices
- Intravitreal, suprachoroidal, intrascleral, transscleral, systemic, and topical routes of delivery
- Physical methods including iontophoresis for drug delivery
- Rational selection of routes of administration and delivery systems
- Noninvasive and continuous drug monitoring
- Regulatory path to drug product development
- Clinical endpoints for drug product development
- Emerging and existing drugs and drug targets *Drug Product Development for the Back of the Eye* is authored by renowned ocular drug delivery experts, representing academic, clinical, and industrial organizations and serves as indispensable resource for ophthalmic researchers, drug formulation scientists, drug delivery and drug disposition scientists, as well as clinicians involved in designing and developing novel therapeutics for the back of the eye diseases. This book is also relevant for students in various disciplines including ophthalmology, pharmaceutical sciences, drug delivery, and biomedical engineering.

From reader reviews:

Ila Petty:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each guide has different aim or perhaps goal; it means that reserve has different type. Some people experience enjoy to spend their the perfect time to read a book. They are reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like reading through a book? Sometime, man feel need book when they found difficult problem as well as exercise. Well, probably you will need this Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series).

Troy Jones:

What do you in relation to book? It is not important to you? Or just adding material when you require something to explain what your own problem? How about your free time? Or are you busy person? If you don't have spare time to do others business, it is make one feel bored faster. And you have extra time? What did you do? Everyone has many questions above. They must answer that question because just their can do in which. It said that about guide. Book is familiar in each person. Yes, it is suitable. Because start from on pre-school until university need this Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series) to read.

David Ashworth:

Do you have something that you enjoy such as book? The book lovers usually prefer to select book like comic, small story and the biggest an example may be novel. Now, why not hoping Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series) that give your entertainment preference will be satisfied by reading this book. Reading habit all over the world can be said as the means for people to know world a great deal better then how they react when it comes to the world. It can't be explained constantly that reading behavior only for the geeky person but for all of you who wants to always be success person. So , for all of you who want to start looking at as your good habit, it is possible to pick Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series) become your personal starter.

Allison Lyon:

As a college student exactly feel bored to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's

country. Therefore , this Drug Product Development for the Back of the Eye: 2 (AAPS Advances in the Pharmaceutical Sciences Series) can make you really feel more interested to read.
